Umpire Manager’s Briefing for Indoor Umpires 2013

Version 2 – 25 November 2013
Preparation

• Be thorough in your match preparation
• Make sure that you understand the Briefing – this is our match plan
• You are expected to umpire to this Briefing – the players want to see the same consistent decisions and actions between each umpire every match, so ask if you are not sure
• Have a personal action plan – try to improve something every match
• Maintain your fitness level
• Report any injuries – get treatment
• Look after yourself – eating, drinking, resting … always be prepared
• Make sure that you understand the latest set of the Rules
• There is no Mandatory ‘Own Goal’ Experimental Indoor Rule
• From previous Umpire Briefings: -
  • Be aware that there is no change to the interpretation of the rule concerning the ball hitting the foot, hand or body of a field player – the text in the rules reinforces the existing interpretation
• Also be aware of any FIH or Competition Regulations which may vary the Rules of Hockey
Main Rules Changes 2013

Maximum number of players per team on the pitch: -
• With effect from 1 September 2013, this is reduced from 6 to 5

Time is not stopped for substitutions, including those of:-
• GKS wearing full protective equipment
• Injured or suspended GKS

**Note that from 25 November 2013 all player substitutions must take place within 3 metres of the centre-line**

Procedures for taking a Free Push: -
• No double touch or movement needed at ‘self-pass’
• No requirement to move the ball at least 1 metre, before another player from the same team is allowed to play the ball

Time Outs now permitted in the last 2 minutes of each half
Guidance on completion of time at end of the half or the match:

If a time-out is called or time expires just before an umpire would otherwise have made a decision, umpires are permitted to make that decision immediately after the time-out is called or after the end of the first period or the match.

- A goal may be awarded provided the ball crossed the goal line prior to the calling of the time-out or the expiry of time.
- A penalty corner, penalty stroke or personal penalty may also be awarded for an offence that occurs immediately prior to the calling of a time-out or the expiry of time.
- Similarly Umpires may immediately review incidents which occur just before the calling of a time-out or the expiry of time to take the necessary action, for instance to correct a wrong decision.
The Match

- Be yourself at all times
- Help the players – the players need to understand what you want
- Teamwork and co-operation are critical – let’s help and support each other
- Be aware of the areas of the pitch where your colleague could need assistance
- If you have to, take time in making decisions
- Try to get the decisions correct and consistent between the two of you
- Use common sense - understand the players’ intentions
Our watchwords should be Awareness – Recognition – Action
Be pro-active. Prevention is better than cure
Set standards early – TALK to the players
Make it easy on yourself – get them 3 metres at free pushes from the beginning
Recognise early when the ball is not in the right place for free pushes – avoid replays
Ensure free pushes are taken correctly
Change your game plan if you need to
Communicate with your colleague
Flow

• Encourage the game to flow by only interfering when necessary
• However do not lose your grip on the match as a result of allowing too much flow!
• Allow the players to contest the ball
• Allow as much advantage as possible
• Read the game – do not ball watch
• Sometimes a free push is a better advantage and causes less frustration
• Whistle timing is critical
Tackling

• Watch tackles carefully – only penalise if you are sure there has been an offence
• Do not penalise just because there is a noise or it looks bad
• Do not penalise if the tackler initially appears to be in an impossible position from which to make a legal tackle
• Watch which direction the ball travels
• Be strict on the breaking down of play and intentional stopping tackles
• Be aware of intentional shielding and body blocking
Obstruction

- Are the players trying to play the ball?
- Is there a possibility to play the ball?
- Is there active movement to prevent the playing of the ball?
- Be aware of professional use of the body to illegally block opponents from the ball
- Limit time spent in situations where the ball is trapped in the corners of the pitch or close to the side-boards, especially towards the end of matches
- Stick obstruction is a ‘hot issue’ for players. Judge it fairly and correctly and blow only if you are 100% sure
Trapping ball against side-boards

• Intentionally trapping or holding the ball against the side-boards is an offence, and should be penalised accordingly

• Recognise when the ball is either trapped between players’ sticks, or unintentionally trapped against the side-boards, and interrupt play with a bully re-start
Ball off the Ground

• Watch lifted balls in open play very carefully – be sure that the lift is either too high or an opponent is within playing distance before penalising them
• Use common sense and show understanding of the play
• Be consistent as an individual and as a team
• Defenders may stop or deflect a shot at goal with the stick above their shoulder. Be aware that there will be stick movement towards the ball, use common sense and only penalise if the ball is genuinely hit
Lying on the Pitch

• Field players must not play the ball while lying on the pitch or with a knee, arm or hand on the pitch other than the hand holding the stick
• Accidental use of the hand or knee on the floor for balance should not be blown as an offence
• Players should not be penalised if the ball just touches the hand which is holding the stick
• Goalkeepers or players with goalkeeping privileges who are lying on the pitch are only permitted to play the ball provided that both they and the ball are inside the circle
Time Outs

• One Time Out per team in each half of the match may be granted upon request from the team captain or a team official
• Time Outs may be requested when play is stopped, including in the last two minutes of each half, but not between the award and completion of a penalty corner or penalty stroke
• Control the Time Outs so that play is restarted after maximum one minute
• Captains are responsible for the correct use of Time Outs by their team
Both of the following actions are dangerous and should be penalised accordingly:

- Playing the ball deliberately and hard into an opponent’s stick, feet or hands, especially when done close to a player or when the opponent is in a low ‘set’ position
- Players collecting, turning and trying to play the ball hard through an opponent who is either trying to tackle or in a low defensive position close to the player in possession

A personal penalty may also be awarded to the offending player
Free Pushes

For free pushes (including centre passes and all restarts after the ball has been outside the pitch): -

- All opponents must be at least 3 metres from the ball
- For free pushes awarded to the attack within their attacking half - all players must be at least 3 metres from the ball

In all situations - if taken quickly and a player is within 3 metres of the ball but is not playing, attempting to play the ball or influencing play, the taking of the free push does not need to be delayed; this same player can play, attempt to play the ball or try to influence play, once the ball has travelled 3 metres – be consistent in your judgment of this.

- Attacking free pushes awarded within 3 metres of the circle are taken back to the nearest point 3 metres from the circle
Free Pushes

A player taking a free push, centre pass or restart can be the next player to play the ball – a ‘self-pass’

• Taking the free push and the next playing of the ball is no longer required to be two distinct and separate actions

At a free push, the ball is no longer required to move at least 1 metre before it can be played by a teammate of the player taking the free push
Free Pushes

For free pushes (including restarts after the ball has travelled over the side-boards) taken by the attacking team inside their attacking half of the pitch:

- The ball may enter the circle immediately after touching the side-board, but otherwise may not be played directly into the circle.
- Failing this, the ball must be touched, deflected or pushed by any other player before it enters or can be played into the circle.
- At a ‘self-pass’ the ball must travel at least 3 metres from the point of the free push (not necessarily in a single direction) before the taker himself can play the ball into the circle.
Free Pushes

For free pushes (including restarts after the ball has travelled over the side-boards) taken by the attacking team inside their attacking half of the pitch: -

• Be pro-active and use your common sense regarding the placement of free pushes either close to the circle or the centre line

• Be flexible, only penalise if the ‘wrong spot’ for the free push is chosen in order to either gain an unfair advantage or for reasons which are against the spirit and aim of the Rules

• Intentionally moving the location of an attacking free push outside the half to create an opportunity to play the ball directly into the circle must be seen as an unfair advantage and penalised accordingly
Free Pushes - Penalties

For a free push taken by the attacking team inside their attacking half of the pitch which is played directly into the circle: -

• Do not penalise unless and until the ball actually enters the circle
• A free push is awarded to the opposing team from the spot where the free push was incorrectly executed

Award the appropriate penalty for infringements and be aware of break down play situations, intentional interference with free pushes etc. Use technical and personal penalties as required or appropriate
Goalkeepers and Players with Goalkeeping Privileges

- Goalkeepers and players with goalkeeping privileges must wear a single coloured shirt or garment of a different colour to both teams.
- Players with goalkeeping privileges may wear protective headgear in their defending half of the pitch; it must be worn to defend penalty corners and penalty strokes. They may take part in the game outside their own defending half of the pitch provided that they have safely removed their headgear.
- At penalty corners, a defending injured or suspended goalkeeper may be replaced by a similarly attired goalkeeper or a player with goalkeeping privileges.
Goalkeepers and Players with Goalkeeping Privileges

- At penalty corners, a defending injured or suspended player with goalkeeping privileges may only be replaced by another player with goalkeeping privileges.
- Allow goalkeepers and players with goalkeeping privileges to move the ball away with their hand / hand protector / arm / body, as part of a goal saving action. Permit this action in situations where attackers have an opportunity to score or attempt to score a goal, so it can also be used to deny attackers the possibility of possession of the ball or another shot at goal.
- If they intentionally propel the ball over long distances they should be penalised with a penalty corner.
No Goalkeepers

- If a team uses only field players, no player has goalkeeping privileges – following the award of a penalty corner it is not permitted for one of the on field players to assume goalkeeping privileges by putting on a different coloured shirt and/or protective headgear.
- Substitutions are allowed at penalty strokes; but if a team chooses to defend a penalty stroke with a player who is taking part in the game as a field player, this will not be considered as a substitution so they may only wear a face mask as protective equipment and may only use their stick to make a save.
Manufactured Offences Rule
Deleted

• The Rule which used to say that ‘players must not force an opponent into offending unintentionally’ was deleted in the Rules of Hockey 2011 - any action of this sort can be dealt with under other Rules

• Be aware of attempts to gain free pushes by the ball carrier, for example, by:
  • Deliberately running into opponents
  • Playing the ball dangerously into a defender’s feet or body
  • Trying to demonstrate an obstruction by lifting their stick dangerously over an opponent’s head

• These are offences in their own right and upset opponents; think through where the ball carrier is likely to do this
Penalty Corners

- Positioning is critical – sell decisions
- Manage the set up – including the meetings on the top of the circle or in defence
- Use pro-active and preventative reminders to prevent possible breaking and other offences
- Apply the drag flick interpretations; co-operation needed if runner is hit – be sure whether this was below or on/above the knee
- Position of disengaged umpire should allow support of colleague on the height and direction of the shot, the possibility of suicide runners and possible obstruction of runners
- When the ball is missing the goal and the defender is hit high on the body, decision is a free push to the defence
Offences during the taking of Penalty Corners

Remember that the Penalty Corner is now taken again if:

- A defender crosses the back line or centre line before permitted
- An attacker enters the circle before permitted
- The injector does not have at least one foot outside the pitch

A free push is awarded to the defence for any other offence by:

- The injector
- An attacker

Deal appropriately with persistent offences by defenders or attackers
Penalty Corners

• A goal cannot be scored unless the ball has travelled outside the circle. If the ball has stayed inside the circle, it is not an offence to take a shot at goal – allow play to continue; if a defender commits an offence which *normally* would have prevented the probable scoring of a goal, a further penalty corner should be awarded.

• If a player defending a penalty corner continues to wear a face mask after the corner has been completed a free push should be awarded. Repetition means another free push and appropriate card.

• Players should, however, be allowed to complete a defending action, even if it means that they play the ball just outside the circle when wearing a face mask – common sense should prevail.
Penalty Strokes

- No personal interpretations
- Stick to the Rules and guidance
- Sell decisions
- Ensure that goalkeeper and taker are in position and prepared
- Taker to be within playing distance of the ball - communicate this early
- At penalty strokes allow the stroke if it looks natural – even if there is a minor drag
- The penalty stroke is a major decision for a major foul
Offences during the taking of Penalty Strokes

If the Penalty Stroke is taken before the whistle is blown: -
• By the attacker and a goal is scored – re-take
• By the attacker and a goal is not scored – free push to the defence

A free push is awarded to the defence for all other offences by the attacker

For any offence by the player defending the Penalty Stoke and: -
• A goal is scored – the goal stands
• A goal is not scored – re-take

Other than those involved in the taking of the Penalty Stroke, for any offence by the defenders and a goal is not scored or by the attackers and a goal is scored, the Stroke is taken again
The following Rules are sometimes inconsistently applied – remember that:

- If the ball is intentionally played over the back-line by a defender and no goal is scored, play is re-started with a penalty corner
- If it is clear that a player is shielding the ball with their stick they should be penalised
- Watch also for tackling players who by pushing or leaning on an opponent cause them to lose possession of the ball
- The requirement for the ball to be stationary, albeit very briefly, at free pushes, especially if it is taken using a ‘self-pass’, should be more strictly (but sensibly) applied
Appealing and Dissent

• Appealing for free pushes – abuse or shouting spoils the game
• Do not allow comments at every penalty corner you award
• Harassment, intimidation and surrounding of umpires after decisions should not be tolerated
• Make it easy on yourself – use your skills and the tools at your disposal to stamp these problems out early in the game
• Make use of the captains, who are responsible for the behaviour of their team

We all need to do this every match!
Approach to Injuries

For FIH Tournaments and, depending upon their Regulations, other Competitions: -

- Go quickly to the player and ask them if they need attention
- If no response ask Captain if the Doctor/Physio is required
- If bleeding is obvious or serious – call Doctor/Physio immediately
- If Doctor/Physio enters pitch the player must leave the pitch for one minute
- Be aware of players who are feigning injury and delaying the game – if this is the case, call Doctor/Physio immediately
GOOD COMMUNICATION

With the players
With your colleagues
and
With your support team
Finally …

GOOD LUCK
&
ENJOY YOUR TOURNAMENT!!
